

2018 HONDA GL1800 GOLD WING

Honda's peerless touring machine becomes even more versatile with the latest evolution of the **legendary** Gold Wing, not only resetting performance limits for the category, but also rewriting the very concept of motorcycle touring. Designed to more compact, lightweight, and technologically advanced that any touring model to come before it, the 2018 Honda Gold Wir ushers in a **new era** of riding, with a long list of standout features meant for added comfort and performance, for both the rider and passenger. The next great adventure starts here.

Rider position is moved forward for optimized weight distribution and improved handling performance.

2018 HIGHLIGHTS

Available next-generation 7 speed Dual Clutch Transmission (DCT) with Walking Mode Forward and Reverse.

Double-wishbone front-suspension system reduces friction and enhances agility, diminishing total shock transferred to the handlebars by 30 percent; inertial mass of components operated by handlebars is reduced by 40 percent.

Honda Selectable Torque Control (HSTC) system on Gold Wing Tour models manages rear-wheel slip.

Hill Start Assist simplifies starting from a stop on an ascent.

With Apple CarPlay™ compatibility, motorcycle connects to user's iPhone to show maps, contacts, and music; 7 inch full-color Thin Film Transistor (TFT) display offers clear viewing of audio and navigation systems.

2018 HONDA GL1800 GOLD WING

Robotically welded aluminum twin-spar frame with revised plate thicknesses in frame spars for optimized rigidity and flex characteristics. (Frame and swingarm are 4.4 pounds lighter.)

 Electronically controlled combined ABS system with single modulator for reduced weight, and radially mounted 6-piston dual front-brake calipers.
